**THANK-YOU** for your co-operation at the photo day. It is very difficult to do this on one day. We keep rehearsing to a minimum so as not to inconvenience people any more than necessary. Obviously it is important for us to get a result we need to have REGULAR attendance in class and rehearsal.

Thank you, to those who have made the effort. I am disappointed that some have not been able to do this and have given little notice of their inability. Dance, we are experts at- we also try to develop social skills- respect for each other and the people we associate with. Everything we take on in life is a commitment. Being absent at a main event, lead up classes or rehearsal disadvantages those who are trying their hardest. Please respect the group you participate with CARE FOR EACH OTHER AND US.
